Date : 21.07.2025

Place : Aizawl

(C.LALDUHAWMA)
Member Secretary
Mizoram State Pollution Control Board

ANNEXURE-1

A Summary Statement on progress made by Municipal authorities in respect of implementation of Schedule III

1. Till date, Mizoram has no established recycling or processing facilities for C&D waste management. However, many efforts have been continuously given by the local authority, Aizawl Municipal Corporation over the years for setting up of proper disposal and management of C&D wastes for Aizawl city. Recently, a plot of land has been identified and acquired at Hualngohmun village area which lies in the southern part of Aizawl, about 12 kms away from Aizawl city. Land development has been initiated by UD&PA department in collaboration with Aizawl Municipal Corporation (AMC) and Aizawl Smart City.
2. Mizoram, being a hilly terrain, excavated soil/muck constitutes major component of C&D wastes generated from all sources. During the FY, 2024-25, total C&D wastes generated is approximately estimated at 1360 TPD, about 80% of which may be of excavated soils. With this, one of the main challenges being faced in management of C&D wastes is proper disposal of huge quantities of excavated soils generated all across the region. Other C&D wastes such as, used timbers, shuttering, scaffoldings etc. are upcycled for other purposes with not much wastes left.
3. For regulating the haphazard nature of the open dumping of excavated soil, much efforts have been given and some of the initiatives taken for the same during the reporting year, 2024-25 is given below:
 - In the absence of C&D waste processing and recycling facility, Aizawl Municipal Corporation has authorized some locations within Aizawl City for disposal of C&D wastes such as excavated soils. The list of the authorized locations as on 26.08.2024 is enclosed.
 - Dumping of excavated soil in places other than the authorized sites is strictly prohibited. AMC has issued Order in this effect and penalty/fine of RS. 5000 is imposed under the Schedule-1 of Aizawl Municipal Solid Waste Management By-Laws,2019
 - During 2024-25, penalty with fine has been imposed to 12 no. of defaulters collecting total fines of Rs 40,200.00

Contd/-

- AMC also prohibited construction works involving excavations and dumping of soil for the monsoon period of July to October, 2024 so as to prevent disasters and environmental degradation due to C&D waste Notification to this effect was issued by AMC under regulation 10 of the Aizawl Municipal Site Development and Slope Modification Regulations, 2017.
- A system of complaint lodging system for public has been launched for addressing the issues of unauthorized dumping of excavated soil.

1	2022	2	Rs.10,000/-
2	2023	Nil	
3	2024	1	Rs.25,000/-
4	2025	6	Rs.30,000/-
	Total	7	Rs.65,000/-

Dated: 09.07.2025

Signature of Joint Municipal Commissioner

Construction & Demolition Waste Regulation has not been formulated till date. However, action has been taken as under:-

1. Comparatively C&D Waste generation such as used timbers, shettering, scaffolding are usually be used by the owner of the construction mainly for fire for the cooking of rearing animals or is let cut to those who are rearing pigs. It is also utilized in the construction of coop.
2. Muck disposal is the main problem in the city of Aizawl, which is regulated by authorizing applicants who requires soil/excavated earth for filling up their land/valley. The list for such authorized land is updated in the website and as enclosed.
3. Order/Notification has been issued for the city for unauthorized disposal of earth/soil and stringently inposed penalty/fine of Rs. 5000 under the Aizawl Municipal Corporation Solid Waste Management Bye-Laws, 2019 Schedule – I
4. No excavation of dumping of excavated soil to authorized dumping area has been issued for the period of July to October; so as to prevent landslide and other man made disaster during rainy season.
5. A system of complaint lodging for public has been also issued for any unauthorized dumping of excavated soil as enclosed.
6. Fencing on/over side drains and main drains has been initiated for precaution of dumping of C&D Wastes and Solid Wastes in many parts of the Municipal area.
7. Notification of restriction of excavation of earth during monsoon season is issued every year under Regulation 10 of the Aizawl Municipal Corporation Site Development & Slope Modification Regulations, 2017.
